PRESS RELEASE

We are glad to inform you that Da Vinci Capital Management has attracted a new strategic partner – the G2 Group ("G2")*. Headquartered in Switzerland, G2 has regional offices in the UK, the USA and Russia. The group focuses on investment management and strategic consulting. G2 has long-term plans for business development in Russia and other CIS countries, considering this region to be of strategic importance.

As a strategic partner, G2 will replace the previous partner of Da Vinci Capital – BSG Group.* Da Vinci Capital Management sees great potential in the joint development of an alternatives investment business and significant synergy in this cooperation. We believe that the global presence and network of the G2 group together with their international experience is an ideal addition to our knowledge of the local markets and proven track record in the region.

Our new partner will primarily focus on the development of the hedge fund operation via expanding our team, helping build up our assets under management and improving the infrastructure through admission to their hedge-fund platform (Leading Hedge (UK) Ltd).
